**(54) INTERRUPTION CONTROL SYSTEM****(57)Abstract:**

**PURPOSE:** To attain equally plural interruption processes by changing the hither priorities to the lower ones for those interruption processes in case plural interruption signals are produced and the interruption processes are carried out in accordance with prescribed priority.

**CONSTITUTION:** A priority changing means 3 changes the hither priorities to the lower ones for interruption processes in case the interruption signals are produced at a time from plural interruption signal generating means 1. Thus such means 3 functions to secure the quality of opportunity for interruption processes.

**LEGAL STATUS**

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's  
decision of rejection]

[Date of requesting appeal against examiner's  
decision of rejection]

[Date of extinction of right]
